Date: January 2020 - September 2020

Come and join us!

Organized & Led by the world-renowned University of Barcelona, Spain and co-funded by the European Commission

Local collaboration with

University of Medicine Mandalay

and

University of Medicine (1) Yangon

UNIVERSITAT DE BARCELONA

WHY PARTICIPATE?

- In-depth training in organ donation, designed for busy healthcare professionals like you!
- A professional certificate awarded at the end of the programme by international and national authorities
- A platform for potential research
- Programme fees… it's free!

WHAT DOES IT INVOLVE?

- Programme includes organ donation detection and evaluation, brain death diagnosis, donor management, family approach, organ recovery and allocation, living donation and donation after cardiac death
- Online and face-to-face methodology, group and individual projects
- Total 750 study hours

WHO SHOULD PARTICIPATE?

- Minimum requirements of medical or nursing degree
- Hospital Services: anaesthesia, neuro medicine, emergency, intensive care, surgery, transplantation, organ recovery…
- Most important… Full commitment with the programme and keen interest in the field! Online modality involves time self-management and a total of 6 face-to-face training meetings!
